

LASER PROCESSED SHEET METAL BARRIER

Modular steel structure S235JR (UNI EN 10025) laser machined with decorative elements customizable, alternating with cast iron or steel posts of your choice from compatible ones.
Standard color anthracite gray or RAL colors on request.

INSTALLATION EXAMPLE

COMPATIBLE POLES

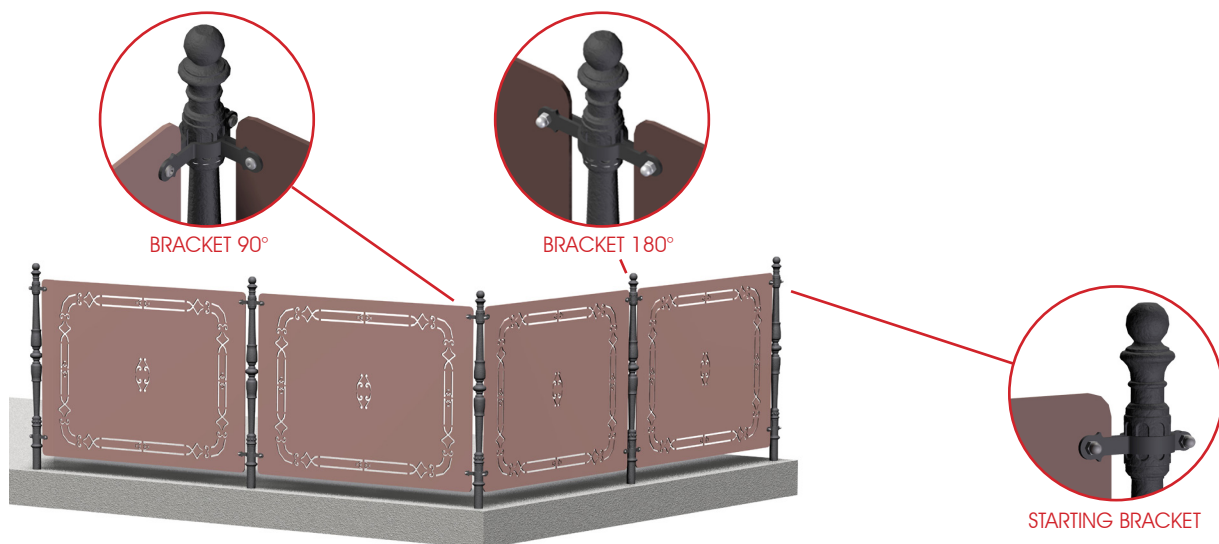

CONNECTING BRACKETS

Fascette sagomate in acciaio S235JR (UNI EN 10025) con fori per il passaggio delle viti di ancoraggio al pannello. Attacchi idonei a diverse configurazioni: iniziale, angolare 90° ed angolare 180°.

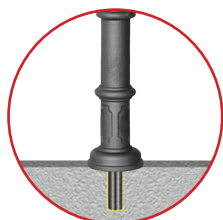

Eventuale attacco opzionale 90°-180°.

Colore standard grigio antracite o colorazioni RAL su richiesta.

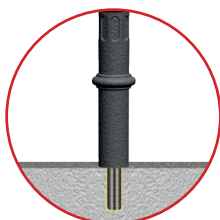

TYPES OF GROUND FIXING

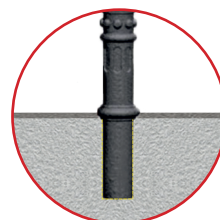

Depending on the type of surface, fixing the post to the ground is recommended with Ø24 mm threaded bar or burying a section of the post itself.
